"Is Mid Size Your Size"

POLARIS RANGER

"You can purchase a mid-size Polaris RANGER for not much more than the price of a quad bike, but it will do a heck of a lot more."

- "Mark Larkham"

QUAD BIKE

122cm

MID-SIZE

147cm

FULL-SIZE

158cm

Mid-Size means it's a little shorter and a little narrower than the full-sized 3-seat range, but that also means it's more nimble, more manageable and more manoeuvrable.

RANGER SP 570 (CAMO)

USING YOUR SxS VEHICLE

SAFELY

A message from Polaris about how to use your SxS vehicle safely.

Polaris has engineered the most capable utility and recreational off-road vehicles packed with safety technology such as Engineered Roll Over Protection (ROPS) Roll Cages, Active Decent Control (ADC), True On Demand All Wheel Drive and more. However when operating a side by side vehicle off-road, the Driver/User and passengers must ensure that they operate the vehicle safely. Here are a few Tips and Hints on how to enjoy your Side by side vehicle safely.

TIPS

Always wear a seat belt. Most injuries occur from passengers or limbs being ejected from the vehicle during an accident. Seat belts are your best friend.

An appropriate helmet is recommended for all occupants (Driver & Passengers). The more passengers in a vehicle, the more likelihood of "head to head" impacts.

- Be aware of HIGH RISK situations such as sloping and hilly Terrain.
- Slow is best when navigating hilly or obstructed terrain.
- In these higher risk situations always use LOW RANGE.

- Be aware of your vehicle condition. In particular it is a good habit throughout your driving day to visually check that your tyres are correctly inflated and you have not picked up a puncture or have a partially inflated tyre. Correct tyre pressures are important for traction and handling.

- Overloading - Your Polaris is designed to carry a certain maximum load (which varies from model to model). Never exceed the maximum load and remember a loaded vehicle may handle and respond differently to an empty vehicle.

ALWAYS WEAR A HELMET, SEAT BELT AND USE SAFETY NETS OR DOORS FOR YOUR PROTECTION
